This workshop is about the most frequent technics of Freinet pedagogy.

Its was a great experience because people from differents part of world can explain and learn to each other : we were from Brasil, Chile, Italia, Germany, Austria, Spain, Cote d'Ivoire, Benin and France. We used technics Freinet to learn this technics !

I will change a lot my way of teaching in September but a need all the month of august to think about it : it's very very rich !
